COMMITMENT LETTER

A RELIABLE CHOICE AND WITH QUALITY ASSURANCE

The **hi!dea™** catalogue was designed and developed to enhance your brand. Our commitment is based on our established relationship of trust, value that we convey through the quality and originality of our products. Thus, we brought together our team around a single objective: your satisfaction.

The products featured in this catalogue were made according to the applicable European norms and laws. This is achieved by existing quality control departments in Europe and Asia, as well as by periodic testing to which products are subject to, carried out by specialized international and independent entities. Simultaneously, our suppliers are in compliance with the laws and rules of the countries where they operate, in particular with regard to human and worker rights and also social and environmental responsibility.

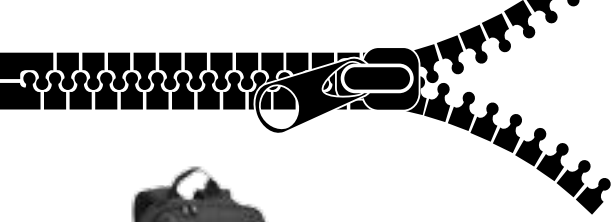
A COLLECTION INSPIRED BY YOU

hi!dea™ design is a strong identity brand, born from the fusion of the avant garde trait and the deep knowledge of promotional products.

Fully designed thinking of you, it combines clean materials with innovative lines and atractive design, transforming these products into memorable gifts.

™



A small bright detail served as theme for this collection.

Its multiple compartments were designed to meet the most versatile demands of modern accessories. Finally, the combination of unique materials and detailed finishing result in distinct images, where elegance dominates.

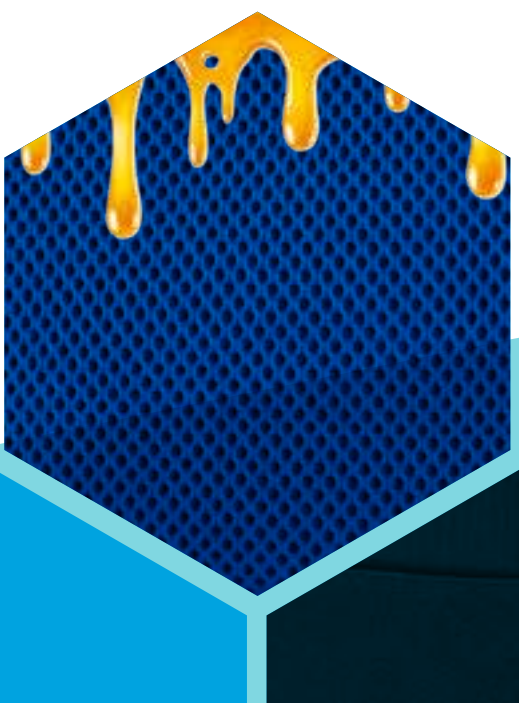
ZIPPERS

reverse zippers with water proof finishing

HEXA

From the challenge of creating a group of products that reconcile discreet design with a touch of audacity, emerged the Hexa collection, where the protagonist is a mesh pocket.

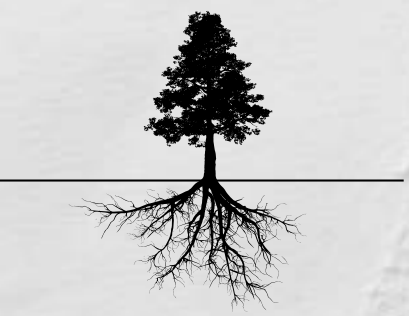
Being functional, this element conveys geniatlity to a collection which allows you to choose the color that best suits your brand.



ROOTS

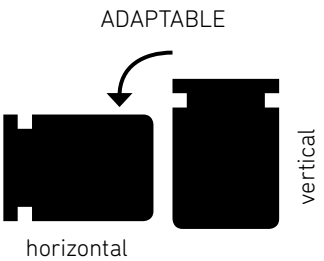
Bearing in mind active lifestyles, these complex notebooks came to life.

Like a root, the strategically placed bands hold your ideas and objects together, giving this day-to-day object an additional function.



TRANSFORM

This eco-friendly notepad was designed for free orientation adaptability. Horizontally or vertically, draw or write without limits. If you need to, you can also rearrange your pages.



BEGINNING

All brands have a begining and ours began with drawing pens!

Inspired by the diversity of shapes, the **hi!dea™ design** writing instrument collection stands out for the boldness of its clips, elegance and meticulous choice of all the elements that make up these objects.

SHAPES

An experience combining geometric figures led to this napkin ring. The solid bamboo block conveys the nature it represents in any environment.

square circle ring

KNOT

A simple knot has inspired the creation of **hi!dea™ design** aprons.

Add your passion for cooking and you'll see how it reflects in the taste.

ENJOY THE OLDEST EUROPEAN TEA.

OFFERING GORREANA IS OFFERING HISTORY WITH AROMA.

Founded in 1883 and located in Azores, the Gorreana tea factory is the oldest in Europe. The same family has been managing the planting area of 45 hectares for about 5 generations.
Gorreana teas represent a union of taste, health and ecology.

The unique tea plantations of Azores represent the ideal environmental conditions for the organically grown tea.

Gorreana teas have worldwide recognition and are ranked as some of the best and purest teas in the world.

BLACK TEA

The black tea Pekoe has a very strong and aromatic flavor. It is produced from the plant's second bearing bud. Due to the strong oxidation of Camelia Sinensis leaves, this tea displays a reddish and dark color and it also contains antioxidants, neuro-stimulants and caffeine.

GREEN TEA

The spraying process of Camellia Sinensis leaves enhances its light and delicate aroma. Being rich in folic acid, vitamin C, K, B1 and B2, this tea has great anti-oxidant and slimming effects, it is also effective in cancer treatments and in anti-aging.

QUALITY PRINTING SERVICES

SCREEN PRINTING

- Screen printing is a printing technique which provides trustworthy and long lasting results. A method of printing designs on a surface by means of a thin cloth on which ink is forced through with a rubber pad. This method may be used on smooth surfaces; printing in high definition even with more than one colour. Recommended for large quantities.

- Used on: note pads, rulers, pill boxes, among other things.

TEXTILE PRINTING

- A method similar to silkscreen printing, however optimized to be used on textile.

- Used on: aprons, polar fleece items, non-woven bags, among other things.

TRANSFER

- This method consists of transferring a printed design on paper onto another surface by means of heat. Enables even results on various types of fabrics and is very economic for multicolour printing on small quantities.

- Used on: aprons, bags, backpacks, non-woven bags, cork.

LASER

- Laser engraving is a precise and long lasting method. The laser beams engrave the design on hard surfaces. Besides metal, it can also be used on wood, leather/PU and glass with exquisite and elegant results.

- Used on: metal pens and key rings, wooden containers, card holders, cork products, among other things.

PAD PRINTING

- This method consists of indirect transfer of ink by means of a mould which has been engraved in low relief. It is the most common method used on small objects such as pens. Due to its versatility, it adapts to curvilinear forms and is the most economical solution for various products.

- Used on: pens, USB flash drives, footballs, among other things.

SUBLIMATION

- Sublimation transfers a design from paper onto another surface by means of heat. Sublimation has the advantage of being able to be used on concave surfaces, producing well defined designs (ideal for photographic reproduction). It also results in a design highly resistant to extreme temperatures.

- Used on: mugs, among other things.

EMBROIDERY

- The well-known embroidery technique allows customization on good quality fabrics with great quality and perfection. Embroidery replicates designs with a large variety of colours and distinct lines.

- Used on: towels, blankets, caps, conference bags, clothes, among other things.

DIGITAL UV

- UV printing offers great advantages like speed and high quality guarantee. This technique is very appealing for it's almost instantaneously dry, due to LED curing, as well as for the ability to print in several colours. Ideal for small quantities and can be applied on plain or slightly curved surfaces.

- Used on: pens, keyrings, rulers, notebooks.
